# STANDASCHENBECHER MIT MÜLLEIMER

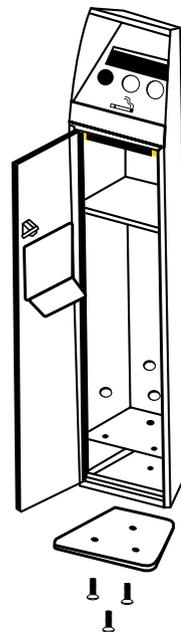

[www.sprintis.de](http://www.sprintis.de)  
[www.sprintis.com](http://www.sprintis.com)

 **SPRINTIS**

**1)** Sockel mit Hilfe des Sechskantschlüssels demontieren.

Vorsicht beim Bewegen der Bodenplatte:  
Teil ist schwer (2,5 kg)

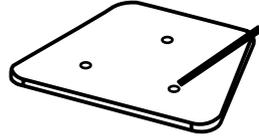

**i**

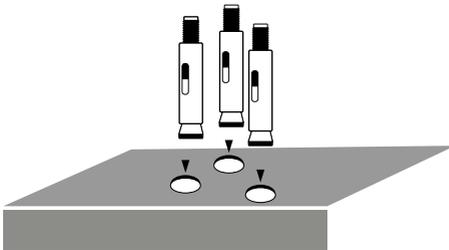

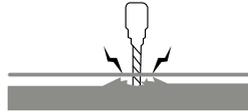

Für freistehende Lösung (ohne dauerhafte Befestigung) Schritte 2), 3) und 4a) überspringen.

**2)**

Marker verwenden, um durch die drei Bohrlöcher Position zu kennzeichnen, an der Standaschenbecher befestigt werden soll. Mit 10-mm-Bohrer bohren.

**Vorsicht!** Vor dem Bohren sicherstellen, dass keine Leitungen oder elektrischen Kabel beschädigt werden können.

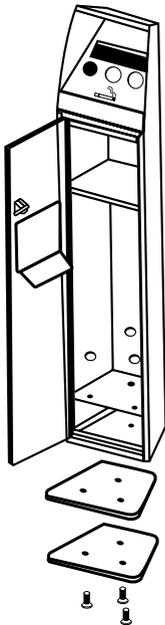

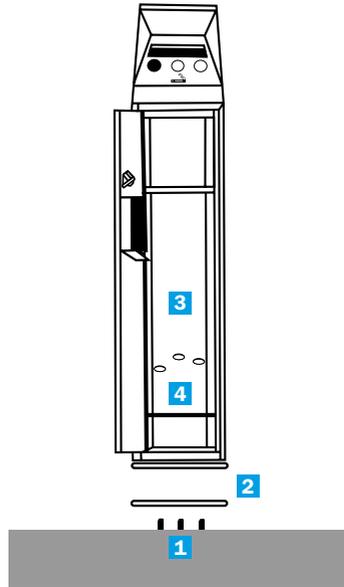

**3)**

Spreizanker in Boden einsetzen.

4a)

Standaschenbecher in folgender Reihenfolge an Spreizankern befestigen:

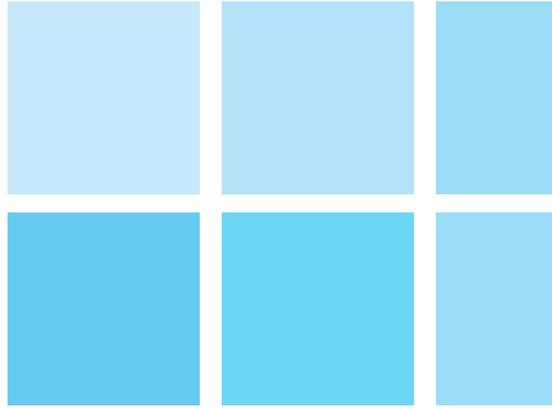

1. Sockel
2. Edelstahlabdeckung
3. Gehäuse Standaschenbecher
4. Innenplatte

! **Wartung**

Der Abfall-/Aschenbecher muss regelmäßig gereinigt und gewartet werden, um Gerüche, Brandgefahr, Risiken und Korrosion zu verringern.

Vor dem Leeren des Zigarettenabfallbehälters sicherstellen, dass keine glühenden Zigarettenstummel vorhanden sind.

# STANDING ASHTRAY WITH WASTE BIN

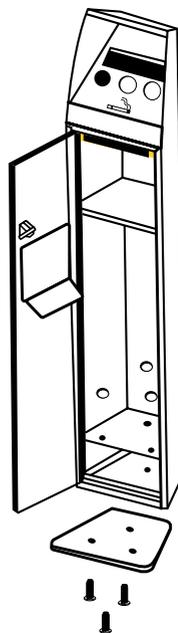

## Assembly Instructions

**1)** Disassemble the pedestal by using the allen key.

Careful when moving the base plate:  
this item is heavy (2.5kg)

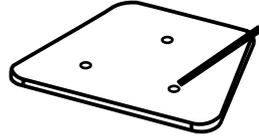

**i**

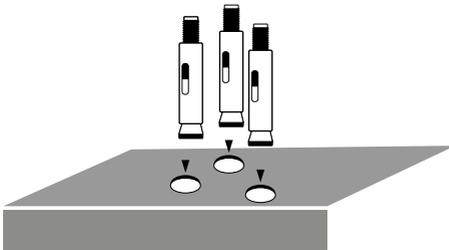

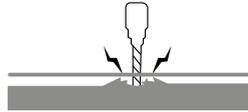

For free stand solution (non-permanent fixing) please skip steps 2), 3) and 4a)

**2)**

Use a marker to mark through the three holes, the position where the standing ashtray is to be fixed and drill using a 10mm drill bit.

**Caution!** Before drilling make sure there are no pipes or electric lines that can be damaged.

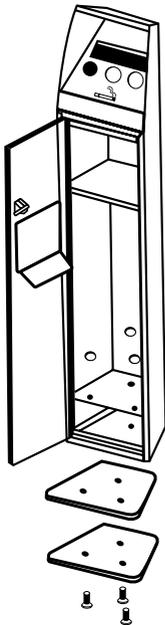

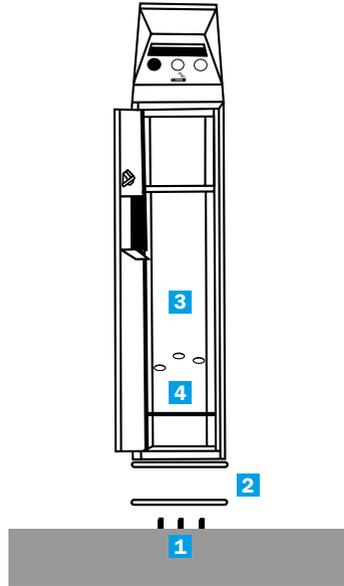

**3)**

Insert expansion bolts on the ground.

**4a)**

Fix the standing ashtray on the expansion bolts in the following order:

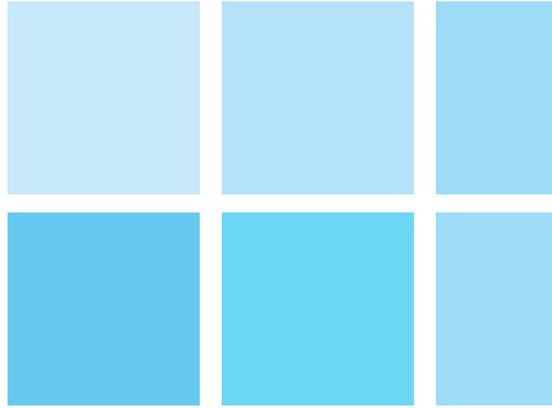

1. Pedestal
2. Stainless Cover
3. Standing ashtray body
4. Inner plate

**Maintenance**

The waste/ash container must be cleaned and maintained regularly to reduce odour, fire, danger and corrosion.

Make sure there are no glowing cigarette butts before you empty the cigarette waste container.
